SCHOOL BOND ISSUE BEFORE VOTERS

Our Town

By Peggy Blanchard

Robert Hoffman was impresserio for his own circus Wednesday afternoon.

For two weeks, he'd trained his acts, coached the actors, built cages for the "wild animals" and secretly rehearsed some "tightrope" and similar specialty numbers, meanwhile promoting the circus in best trooper fashion—so all the youngsters along Sunnyside avenue had their allowances saved up for the big doings. And don't think the HCL hasn't hit back-yard circuses. Admission was a nickel, sideshows and refreshments extra pennies.

★

Bing Crosby is a most agreeable guest, Mr. Peabody reports, but prefers interviewing his favorite baseball players on the San Jose Red Sox to being entertained himself. Bing was here to aid a benefit at Bellarmine School Sunday, was guest of honor at the Peabody's home later and then went over to talk baseball with the San Jose club.

★

Here I am rattling around in a large pair of shoes while the business manager of this newspaper is off deer hunting.

To begin with, I had no idea that a week of hunting and fishing required so much gear. The army has reduced the amount of duffle each man packs with him by some 175 pounds in the last decade or so, but it seems the huntsman still needs two stout horses or at least a small truck to get him and his tackle into the wilderness.

Their more civilized regalia was all left behind, but as Jim Brand, Sam Robinson and Harry set out Saturday morning, they were well supplied with blanket rolls, sweaters, jackets, sox, extra boots, ammunition, reels, rods, and a delightful array of sundries—everyone of which they claimed was absolutely necessary to the trip.

★

The Karl Bohnetts, the Jim Arends and lots of other Campbellites are off to the northwoods, too, I understand, to greet the deer season.

★

My first official act as sole charge d'affairs at the Campbell Press this week was to sleep soundly through all the excitement of the big fire at the dehydrator. Therefore, I can offer readers only the merest second hand version of the scene. Nearly everyone else in town was there, in pyjamas, robes, carpet slippers and curlers as the sirens blew and the firemen brought their equipment up to subdue the blaze.

★

The prune situation was further snarled up this week when growers challenged the authority of officials to change the program they recently voted upon as a marketing procedure.

This won't affect the Campbell dryer, though, which reports business as usual.

Red Dot Spotter Misses Deadline

Ken Strong, 201 E. Campbell avenue, reported the "red dot" on a Santa Clara County Fair poster in Decker's market Friday; but he was too late to get those two free passes.

Sharp-eyed folk from all over the county reported in the first 100 dots quick as a wink after initial announcements of the contest, and used up the quota of passes alotted for the dot-spotters.

Returned Traveler Describes Australia For Kiwanis Club

A gloomy picture of American relations to Australia was drawn verbally for Campbell Kiwanis Club Tuesday noon by Russel Lambert of Los Gatos.

Just returned from a world tour, Mr. Lambert described the operation of the Laborite government in Australia from the viewpoint of the man in the street and told of buying newspapers printed in English in Moscow for two cents while American newspapers there sell for 17 cents to a very limited circulation.

High taxes, government ownership of all public services and strict controls of all transactions impressed the visitor most.

Kiwanis guests Tuesday were Rev. Denis Kennelly of St. Lucy's Catholic Church, Dr. Corwin H. Olds, pastor of First Congregational Church, and others from Los Gatos, San Lorenzo and San Jose.

Joe Agosotinho, Jim Avella and J. F. Levenberg were presented with attendance awards.

Marketing Order Disputed in Suit Over Prune Crop

Dissatisfaction with recent directives of the State Agricultural department and State Prune Program Committee led to an injunction suit over marketing of the California Prune crop for 1948.

An injunction suit that may affect prune crop disposal throughout the entire State was filed by six growers in Superior Court Wednesday.

The action attacked legality of the State Prune Program Committee's regulations covering 1948 surplus prune controls and pools.

Alleged is that control and pool regulations adopted by the committee would render prune production "economically unfeasible."

Defendants include A. A. Brock, State Director of Agriculture, and 16 grower and processor members of the State Prune Program Committee. Other defendants are: W. J. Kurht, chief of the California Bureau of Markets; the State Department of Agriculture itself, and the State Pro-Rate Advisory Commission.

The suit was filed by the following: Joseph Zoria, Vincent Cortess, Francis Arnerich, Paul Marce and M. M. Perusina, Santa Clara County growers, and Robert C. Taggart, San Benito County grower and packer.

FOUR PRIZES

Mrs. C. A. Villes, Sunnyside avenue,, took four prizes at the County Fair this week with her home-canned peaches and fruit salad.

Future of Community Chest in Doubt As President Offers Resignation

Discouraged by small attendance at a meeting of Campbell Community Council called for Sept. 8, Ray lish, president of the council which maintains the Community Chest, offered his resignation by letter to the 21 council members.

The Community Chest is the chief support of local Boy Scouts, Girl Scouts, Campfire Girls, and the recreation program for youth. In addition it makes sizeable contributions to the Campbell branch of the County Free Library and underwrites the milk fund for needy children in the schools.

Last Wednesdays meeting was attended by some 21 representatives of agencies that look to the Council for funds. Secretaries and directors of the various groups had prepared budgets and reports of activities, but they found no quorum of the council budget committee to hear their pleas for the forthcoming year.

Community Chest campaigns are traditionally held about Oct. 15.

Mr. Fish, who served as chairman of the successful campaign in 1947 when the Chest fund was over-subscribed by a comfortable margin, became president of the Community Council at the conclusion of last year's drive.

After the meeting last week, he released the following letter, cop-

Campbell Group To Aid Amendment

A public meeting was held Tuesday evening at the Methodist Church for a discussion of Propositions No. 2 and No. 12 for the November voting. It was unanimously agreed by the group to support Proposition No. 12, which provides for community liquor control, and to oppose Proposition No. 2. Mrs. Daisy McClintock, chairman of the Santa Clara County division of the California Tem-

(Continued on page 6)

Sanitary District Election Monday

Monday is Election Day for Campbell Sanitary District, which will name an assessor and three members of the sanitary board.

Guy E. Farley, incumbent, is the lone candidate for sanitary assessor and three incumbents who will stand for re-election to the board are Ross C. rowbridge, Walter H. Stray and Charles E. DeSelle.

Legion Takes Series In Twilight League

American Legion Post 596 won the second-half championship of the Twilight League in a 4-1 victory over the Kiwanis team Tuesday evening at the Grammar School grounds.

The Legion will play First Methodist Church men's team which won the first-half series for the season championship.

Cambrian School Opening Delayed

Cambrian School has postponed its opening day from Sept. 20 until Monday, Sept. 27, Delos Bagby, principal, announced Wednesday.

The postponement followed requests by ranchers of the district, who asked that pupils be allowed to continue to help with harvesting of late crops.

Fire Damages Ten Tunnels at Dryer

Estimates of damage left by a fire that partially destroyed ten tunnels at Campbell Co-Operative Dryer early Monday morning await the beginning of repair work, Dryer officials said today.

Wiring and several motors in the affected tunnels will have to be repaired and replaced before the equipment can be used.

No lay-offs because of the fire, which endangered the entire dehydrator—said to be the largest in the world—were reported.

The plant was temporarily closed Monday, but resumed operations uesday.

Because hazy weather delayed the ripening of the prune crop by a few days, drying is proceeding as rapidly as the fruit is brought in, company officials said.

900 New Telephones in Campbell Increases Number by 100 Percent

Wish you had a telephone?

Here's the cheering news: Some 900 of the Campbell homes ahead of you on that waiting list have had their phones installed since V-J day and the ratio of waiters to users is growing smaller.

installations in the past few

Campbell's 900 new telephone months just doubles the number that were in service prior to the end of the war—an increase of 100 percent.

These figures were released by W. E. Williams, district manager, on the occasion of the installation of the one-millionth phone since V-J day on Tuesday, Sept. 14, by Pacific Telephone and Telegraph Company.

The million phones represent a net gain in service over the whole West Coast area.

Graphically indicative of the way the West Coast population has moved around since the war, the company has installed more than 3,000,000 telephones, and taken out over 2,000,000 in achieving a growth of a million.

Williams said that the company estimates the population gain in the Pacific West, since V-J Day, has been approximately 2,000,000 or 17 per cent, while in the same period the million telephones represents a growth of 38 per cent.

"This impressive record of telephone expansion," Williams went

(Continued on Page 8)

4-H Girls Win Laurels at Fair

Although they've been organized only a few months, 4-H Girls Club of Campbell stepped out and won two blue ribbons and a second place at the Santa Clara County Fair this week.

Claire McFaul took a blue ribbon for a collar and cuff set and one for a skirt she designed and made, and Rebecca Perez won a second place for a collar and cuff set.

Mrs. Arthur Tindall is leader of the group, which meets in Campbell Grammar School. Girls of the district may enroll Oct. 1 for the current year.

Grange Wins County Fair Prize

Orchard City Grange 333 heard the news that the Grange booth at Santa Clara County Fair won second prize at a meeting Tuesday evening in IOOF hall.

Mervyn S. Keesling reported on the fair booth and Mr. Gordon gave a brief description of his trip to Grand Canyon, Hoover Dam and Death Valley and showed colored slides of the scenic points.

H. M. Shadle, grange master, presided.

PTAs Favor Trustee's Request For Funds As Half-Day Sessions Loom For Pupils

A crisis exists in the Campbell Elementary School District. There aren't enough rooms in the school district to accommodate all of the children who are ready for school when classes are called to order Monday morning.

On October 15, the voters of the Campbell Grammar School District will be asked to go to the polls and vote YES on a proposed $277,000 bond issue proposition. This bond issue has been called by the board of trustees to meet the problem of educating all the children. Parent-Teacher Associations of the district are leading a citizens' movement to support the building program.

What will be done with this money? It will go toward the construction of 20 new school rooms; eight in the Moorpark district; six in Campbell and six in San Tomas. At present all of the Moorpar district school children are having to go on double shift; the second, third and fourth grade students in San Tomas will be on double shift and the second and third grade students in Campbell are doubling up, because there aren't enough rooms to accommodate all of the children at one time.

An anticipated increase of 300 students is expected in the grammar school district this year. This brings the total anticipated enrollment to 2150 students with school facilities for 1596, which, if all the students were to go on a full time

(Continued on Page 8)

High School Is Ready for First Classes Monday

High School classes for some 940 students will get underway Monday morning, when school busses begin their regular routes. A new bus has been purchased for the Almaden route and will be in operation at the appointed time.

Newly refinished desks are ready for the high school population and extensive cleaning and painting of the school rooms is complete.

District Superintendent Laurance J. Hill said the teaching staff will number 41 this year. This is an increase of eight over last year, plus three replacements.

Summer projects at the school have included expansion of shower facilities through addition of a new shower room for athletic teams. The six tennis courts have

Church Tea in October Planned By Methodist Women's Society

On Oct. 7 the W.S.C.S. of the M. E. Church is giving a silver tea, to which everyone is invited.

There will be an exhibit of beautiful hand made articles, from which orders will be taken.

The idea is to give everyone an opportunity to plan their Christmas gifts ahead, with deliveries promised before the holidays.

Orders will be taken for handwork, delicious home-made cakes and Christmas cards.

The tea is to take the place of the annual bazaar.

The president, Mrs. J. M. Dahl, appointed as the committee in charge Mrs. Dorothy Lloyd, Mrs. Bessie Kennedy, Mrs. Root, Mrs. Bradley with Mrs. Hattie Fellman as chairman.

Beverlee Jensen's Engagement News Told at Party

A brunch at Lou's Village was the occasion selected by Miss Beverlee Ann Jensen to announce her engagement to Richard Lee Andrews.

The romantic news was disclosed by miniature scrolls, inscribed "Bev and Dick," which were used as place cards.

The bride-elect is the daughter of Mr. and Mrs. Henry W. Jensen of Campbell, and she is the sister of Bill Jensen and Mrs. Kenneth Sheets. She is affiliated with the Order of Job's Daughters.

The future bridegroom is the son of Mr. and Mrs. Harry Andrews of San Jose and brother of Thomas I. Andrews. He served in the Navy during the war and is now attending San Jose State College where he is studing industrial technology. His fraternity is Theta Mu Sigma and he is also affiliated with DeMolay. Miss Jensen also attends San Jose State College and is majoring in art.

USE THE CLASSIFIED

Navy Awards Contract for Bigger Blimp

The U. S. Navy Bureau of Aeronautics announced today the award of a contract to the Goodyear Aircraft Corporation for the engineering design of a type "N" non-rigid airship.

Largest non-rigid, lighter-than-air craft ever contracted for by the U. S. Navy, the "N" ship will have a helium capacity of 825,000 cubic feet.

The ship will be the first post-war lighter-than-air craft to be built in this country and will have a larger helium capacity by 100,000 cubic feet than the last war-time type "M."

One of the most radical design changes in the "N" ship will be enclosure of the engines within the car. They will be accessible for repair and maintenance in flight. Power plants will be radial, air cooled, C7—BA1 Wright Cyclones rated for 800 horsepower at take-off.

Two 18-foot reversible, controllable pitch propellers, connected to the engines through a system of transmission shafts and gears, will be mounted on nacelles suspended from the car by means of single outriggers. Gearing design is such that one engine can run one or both propellers at desire of the pilot.

Another radical change from normal blimp configuration is the installation of tricycle landing gear. The two main wheels will be fully retractable into the propeller nacelles and the nose wheel will be fully retractable into the bilge of the car.

Designed primarily for patrol operations, the new blimp will have an empty weight of approximately 34,000 pounds. It will be 324 feet long from mooring pin to the after end, 71 feet wide, and 92 feet high at the tallest point.

General contour of the envelope itself will be similar to the M-type predecessor. A one-section car will be used in the "N" ship, however, instead of the articulated car employed by the "M" ship.

Overall length of the car will be 87 feet. It will be constructed on a two-deck plan that will place the relief crews living quarters away from the activity of the active crew. There are eight special service compartments in the car.

Provisions have been made for a pilot, co-polit and command pilot. Controls are so rigged that functions may be handled by one pilot or split between pilot and co-pilot. All controls will be boosted mechanically to reduce pilot effort.

Four fins will be mounted 45 degrees from the vertical on the aft section of the envelope. The envelope itself will be three-ply fortisan-rayon fabric coated with neoprene synthetic rubber. This construction will give the best strength-to-weight ratio ever used in lighter-than-air ship construction.

Normal crew will be composed of 14 officers and men. A galley and mess complete with electric range and electric refrigerator are installed in the upper deck and bunks for eight men are provided in crews quarters.

This airship will be almost twice the size of the K-type blimps used for anti-submarine patrol in World War II.

One-Millionth Telephone Since V-J Day

Five-year-old Ashley Stone is all smiles as she places a call over the one-millionth telephone installed by The Pacific Telephone and Telegraph Company since V-J Day. Looking on is her sister Ann, age 3, and "Daisy." The phone was installed Tuesday, September 14, in the home of their parents, Mr. and Mrs. James C. Stone, 3401 Franklin Boulevard, Sacramento.

Barracks To House Overflow Classes At Cambrian School This Fall

Cambrian School will use three barrack buildings to house part of an estimated enrollment of 400 pupils when classes resume there Sept. 27.

The barracks will tide the school population over until construction of a $127,000 six-room unit is completed sometime in 1949. State funds have been allocated for the new building, but not received.

The school will have a kindergarten this year for the first time, with Mrs. Phyllis Jones, formerly of Twenty-nine Palms, as the teacher. Other new staff members will be Mrs. Jack Falk, recent San Jose State College graduate, who will teach second grade and Mrs. Marie McGlothlin, formerly of Missouri, eight grade teacher. A contract is pending with another new teacher for an overflow fourth and fifth grade room, who may also be the orchestra instructor. Cambrian will share a special speech teacher with the Campbell schools.

Another new feature at the school will be a quantity of play ground apparatus, now being installed. It will range from wheel toys for the kindergarteners to slides and sandboxes for those slightly older, and a "circus," with bars and rings for climbing and swinging and a merry-go-round. Much of the equipment has been donated, Bagby said.

The older school building has been completely painted on the outside and partially painted within.

The usual bus transportation will be provided and the cafeteria be open.

Here's Chance for Veteran's Low-Cost Housing Buy

Veterans in need of housing will have a chance to choose from approximately 200 surplus Army buildings priced as low as $50 at Camp McQuaide, near Watsonville, starting Saturday, September 18, it was announced today by the State Department of Finance, Local Allocation Division.

Under the State War Surplus Housing Program the Department of Finance has purchased the structures for resale to certified veterans who are required to use them for housing for themselves and their families, according to H. H. Jaqueth, chief of the Local Allocation Division.

In the $50 (plus sales tax) group are a few hutments, 16 by 16 feet, while other buildings, such as large latrines complete with fixtures, range up to $800.

The largest group are hutments priced from $115 to $150 and measuring 16 by 48 feet. These, Jaqueth said, are perfectly adaptable to low-cost housing and can readily be improved and incorporated into permanent homes.

Most of the buildings are wooden, with tarpaper-over-sheating exterior, board and composition roofs and tongued and grooved fir floors.

Purchasers must make their own arrangements for dismantling and removal of the structures, Jaqueth said. Sales will be on a "first come first served" basis and for cash, plus a small deposit to guarantee removal and site cleanup.

Veterans not already certified as eligible to participate in State sales like the one at Camp McQuaide were advised by Jaqueth to file applications at once at the nearest county veterans' service office or veterans' service center, taking copies of their discharge with them.

Beginning Saturday, the sale will continue seven days a week, or until all buildings are sold. A State representative will be on duty at a centrally located office at the camp from 8 a. m. to 4:30 p. m. to assist veterans or their authorized representatives.

Jaqueth also reminded eligible veterans that some buildings remain available at several other places in California on the same basis, particularly at Camp Haan, Riverside; Port Hueneme, Ventura County; Blythe Army Base; and Camp Beale, Marysville.

At Camp Beale, center of the "packaged home" setup whereby hundreds of veterans have solved their housing problem by means of panelized buildings, there are some 90 of the "prefab" units left, as well as numerous mess halls and storehouses.

Veterans in the Fresno area were invited by Jaqueth to visit the sample home setup from the Camp Beale sections, and see how sturdy and attractive these homes can be made. This display of a six-room home is located on Blackstone avenue near Weldon, directly west of the Fresno State College Stadium. A representative of the Department of Finance is on duty from 9 a. m. to 6 p. m. daily.

Dewey's Campaign Tour Will Bring Him To San Francisco

Governor Thomas E. Dewey will make his first presidential campaign talk at Des Moines, Iowa, September 20, it was announced recently by Northern California Dewey-Warren Campaign Headquarters.

His address will be carried by CBS and Mutual networks from 7:00 to 7:30 p.m., PDT.

Dewey will make major addresses at San Francisco and Los Angeles. On September 24 he will speak in the southland and on the next day in San Francisco in the Civic Auditorium.

Indications were that Dewey would make few stops en route West.

Governor Earl Warren, Dewey's running mate, will be speaking in the Midwest during the same period. He will return to Sacramento October 15.

Meantime, it was also announced that Gordon X. Richmond, Orange attorney, had left for Washington, D. C., to serve as liason for Governor Warren at National Republican Campaign Headquarters.

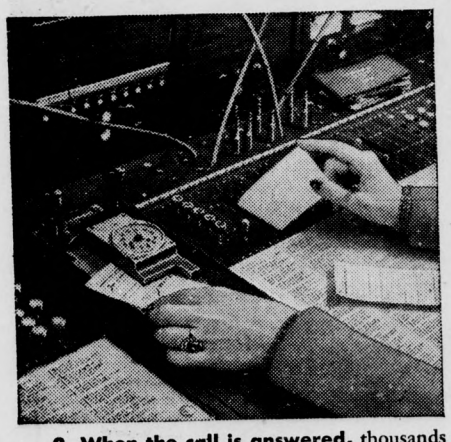
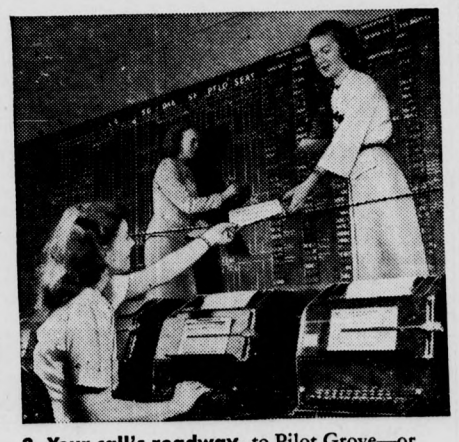
"THIS IS LONG DISTANCE"

How telephone operators route and time your calls

1. Perhaps you've wondered how your long distance calls usually go through so quickly . . . even to small, far-away places. The routing operator is one reason. A long distance operator has just asked her the route to Pilot Grove, Missouri. From her special book she finds it and flashes back . . . "MX Kansas City, TC Boonville."



2. When the call is answered, thousands of miles away, the operator placing the call slips her "toll ticket" into this device . . . known as a calculagraph. When you begin talking, she moves a lever to stamp the time on the ticket. When you hang up, a signal tells her to stamp it again . . . thus recording the length of your call.



3. Your call's roadway, to Pilot Grove—or anywhere—is kept open in this Traffic Control Center. Should major trouble occur on one route, the Center must find another to carry the calls. This is just part of our service job . . . making it possible for you to call across town, or across country, when you wish, as often as you wish.

4. When you make a telephone call, you hire a mighty servant to work for you at small cost. And that servant is more useful than ever. In the past ten years, the number of telephones on the Coast has about doubled. We're hard at it to provide more and better service for more people. And each new telephone added makes every telephone that much more valuable.

The Pacific Telephone and Telegraph Company

Homemaking Today

By Claire Raymond
P. G. and E. Home Economist, San Jose

Potatoes deserve special attention in your menu planning, particularly when saving pennies is as important as it is now. There is good food value in potatoes—vitamin C, some of the B vitamins, iron and carbohydrates. You can use them in main dishes to stretch your supply of meat, fish, milk or eggs.

To retain vitamins and minerals, cook potatoes in their jackets whether you serve them creamed, parsley buttered, mashed or hash-browned. Use a small amount of water and after they start to boil, turn the heat to low and allow them to boil gently until tender.

If you pare them, keep the peelings thin. When potatoes must be peeled ahead of time, put them in salted water until time to cook.

Here are ways of serving potatoes that may help you avoid monotony.

Scalloped potatoes have a new, delicious flavor when cream of mushroom soup replaces part of the milk. For 6 medium-sized potatoes, use 1 can of soup and about 1 cup of milk—enough to cover the potatoes. Season with salt and pepper.

Browned potatoes that are temptingly different may be prepared as follows: Cook potatoes until about half done, then cool, peel and slice about ¼ inch thick. Dip the slices first in beaten egg, then in bread crumbs, and brown in drippings in a frying pan.

SPANISH POTATOES

1 tablespoon minced onion
2 tablespoons chopped green pepper
2 tablespoons chopped pimiento
4 tablespoons oil or bacon fat
2 cups diced cooked potatoes
½ cup leftover cooked ham or corned pork
1 teaspoon salt
½ teaspoon paprika

Saute the onion, pepper and pimiento in the fat until light brown. Add potatoes, ham and seasonings and cook until thoroughly heated and lightly browned. Makes 4 servings.

MEAT-POTATOBURGERS

¾ pound ground beef
¾ cup ground or coarsely grated raw potato
¼ cup ground or grated onion
2 tablespoons chopped green pepper
1 teaspoon salt
1 egg
Drippings or other fat
1 cup tomato juice
1 tablespoon flour

Mix all ingredients except fat, tomato juice and flour. Form into 4 or 5 flat cakes. Brown the cakes on both sides in fat in a frying pan. Add the tomato juice, cover, and simmer slowly until done, about 25 minutes. Remove the cakes and keep hot. Mix flour with a little water and stir slowly into tomato juice. Simmer, stirring constantly, until thickened. Pour sauce over cakes. Makes 4 servings.

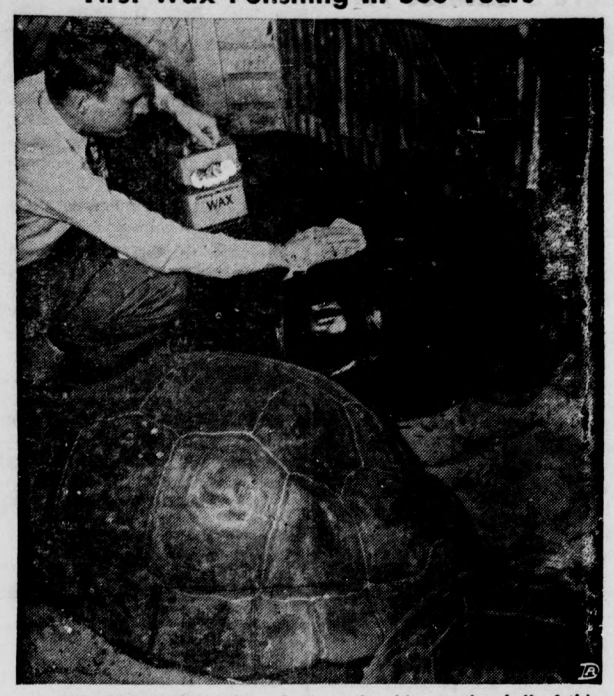
First Wax Polishing In 500 Years



ST. AUGUSTINE, FLA.—Look at the shine on the shell of this 500-year-old Galapagos Island tortoise. It's the first cleaning and polishing the old boy has received in his lifetime. Note the dull shells in the foreground as contrasted to the one which has been polished with liquid wax. These tortoises are believed to be the oldest in the world. The Galapagos tortoises are desert dwellers in their native islands and do not care for water.

Hubbard Grooms Spartan Squad For Stanford Game Saturday

Nearly 60 hand-picked candidates for the 1948 San Jose State football team are going through their paces daily as Coach Bill Hubbard initiated pre-season practice for the Spartans.

Hubbard and his assistants, Line Coach Bob Bronzan and Backfield Mentor Hampton Pool, were pleased with the condition of the gridders, most of whom have stayed in shape over the Summer in jobs as laborers in a variety of occupations.

With the first game, Stanford at Palo Alto, coming up Sept. 18, the spartan head coach greeted 24 lettermen who form the core of a squad facing a stiff 12-game schedule.

Lettermen backs include Quarterbacks Chuck Hughes and Pete Denevi (All-CCAA, 1946); Halfbacks Steve O'Meara, Capt. Billy Parton (second team Little All-Coast, 1947), Fred Mangini, Bill Schemmel and Harry Russell; Fullbacks ack Dempsey Donaldson (All-CCAA, 1947), Fred Silva and Fred Lindsey.

Returning linemen who have won letters include Ends Dean Sophia, Junior Morgan, Mel Stein, Erle Johnson, George Keene, and John Stansfield; Tackles Art Allen, Jack Faulk and Harley Dow; Guards Joe Juliano (2nd All-CCAA, 1946, 1947) Jack Lercari and Vico Bondietti; Centers Bob Pifferini (Little All-Coast, 1947), and Dick Voris.

The Spartans will hold morning and afternoon workouts daily until the first game.

African Expedition Sends Specimens

Sixty cases of fossils weighing 6000 pounds are now en route to the Berkeley campus of the University of California. The fossils are the fruit of a year of excavation by the paleontologists of the southern phase of the University's African Expedition.

This is disclosed by Dr. Frank Peabody, paleontologist with the expedition, who recently returned to Berkeley. The specimens were shipped by Dr. Charles Camp, professor of paleontology and supervisor of the southern phase of the expedition. Dr. Camp is expected to arrive in Berkeley shortly.

The specimens include the upper right leg bone of the South African man-ape, an ancient creature whose role in evolution remains to be determined with certainty.

Dr. Peabody said that an analysis of the large quantity of material gathered, including fossil mammals which lived at the same time as the man-ape, may make it possible to tell the age of the creature.

Among the specimens of special interest to Dr. Peabody are a number of mammal-like reptiles, species which bridge the gap between the age of reptiles and the age of mammals, a gap which is missing from North American fossil deposits. Dr. Peabody said that, with the addition of these specimens to the University's collections, the the state institution should have the best collection of these fossil mammals in this country.

Deer Hunting Fair in Northern Areas; Game Commission Reports Changes

Deer hunters taking to California's north coastal, Sierra and Lassen-Modoc areas between Sept. 16 and Oct. 15 will find changes made by the Fish and Game Commission in the status of eight deer refuges.

The refuge closures and boundary revisions were the result of investigations made by representatives of the Division of Fish and Game and conferences with local sportsmen, farmers, forestry officials, and other interested individuals.

At their last meeting, commissioners voted to close the eastern half of Huntington Lake refuge in Fresno County and took no action on the Fig Garden refuge near the City of Fresno, leaving it open to hunting.

Earlier action by the Commission changed the status of the following refuges:

Smith Peak refuge 1-V in Plumas County—closed entirely.

Hackamore 1-B in Modoc County—Potter Pasture section closed.

Refuge 1-Q in Lassen County—closed except in southwestern section.

French Meadows refuge 1-I in Placer County—closed except in southwestern section.

Refuge 1-R in Tuolumne County—closed except for narrow strips on northern and southern boundaries.

Long Bell refuge 1-N in Modoc County—eastern half closed.

Hayden Hill refuge 1-S in Lassen County—northern half closed.

Early reports from Superior California fish and game wardens indicate generally good deer hunting when the north coastal, Lassen-Modoc and Sierra hunting seasons begin Sept. 16. This was announced recently by the Sacramento office of the division of fish and game.

During the month-long open seasons, California hunters may take bag limits of two bucks in Del Norte, Trinity and Humboldt Counties and portions of Shasta, Siskiyou and Tehama Counties.

A one buck limit applies to Modoc and Lassen Counties and portions of Siskiyou and Shasta Counties. No forked horn bucks may be taken in the Lassen-Modoc area.

One buck may be taken in the Sierra area, which includes Plumas, Sierra, Placer, El Dorado, Nevada, Yuba, Butte, Alpine, Sacramento, Amador, Inyo, Mono, Tulare, Mariposa, Tuolumne, Calaveras, Imperial and San Bernardino Counties and portions of Riverside, Kings, Kern, Fresno, Merced, Stanislaus, San Joaquin, Tehama and Shasta Counties.

Bow and arrow hunters will be allowed to take deer during a special 10-day season which will open Sept. 6 in the three areas.

By counties, wardens have reported early deer hunting conditions as follows:

Siskiyou — Hunting conditions are good; the animals should be found in the lower hills.

Modoc—Conditions are poor to good, the deer are in good condition, but in somewhat smaller numbers than last year.

Lassen—Good hunting is predicted in most areas; large bucks are scarce and in smaller numbers than last year in some areas.

Sierra—If dry weather continues, hunting will be difficult; about 10 per cent of the deer are bucks.

Alpine — Excellent hunting is forecast for some areas.

Tuolumne—The hunting should be good; the deer, scattered and in good condition, are in greater numbers than last year.

Plumas—Conditions are very favorable; large numbers of black tailed deer are in good condition.

Humboldt, Del Norte — The hunting should be excellent unless unusually hot weather prevails before Sept. 16. The bucks are more numerous than last year.

Placer—Good conditions prevail; great numbers of deer are in some areas; many will be found in the foothill areas.

Nevada—The hunting prospects not promising; there is a heavy fawn crop, but the legal buck supply limited.

Butte—There are abundant deer in good condition.

Bret Harte Manuscript Is Part of Traveling Centennial Exhibit

Life in the gold camps of early California, as supposedly seen through the eyes of Charles Dickens, is sketched in a rare manuscript by Bret Harte to be exhibited in the Historical Caravan of the California Centennials Commission soon to tour statewide.

Written in 1870 as a tribute to the famous English author when news of his death reached California, the original manuscript is a three-page poem in which Harte's vivid imagination depicts Dickens at a miner's camp fire.

The poem, written on plain sheets of scratch paper, was entitled "Dickens in Camp." Harte prepared the eulogy for the Overland Monthly, a famous West Coast magazine published in San Francisco.

Loan of the document to the Commission was made by Mills College in Oakland. It was once the property of the late Albert Bender, noted San Francisco patron of the arts.

The Harte manuscript will be featured in a section of the Caravan dealing with events in California's fabulous mining days. Other exhibit sections will chronicle the state's history from the days of Spanish explorations up through the "Golden Era" of California expansion.

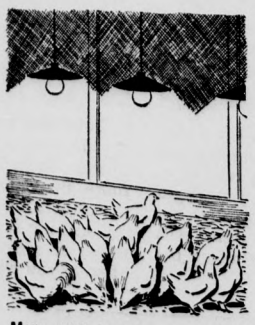
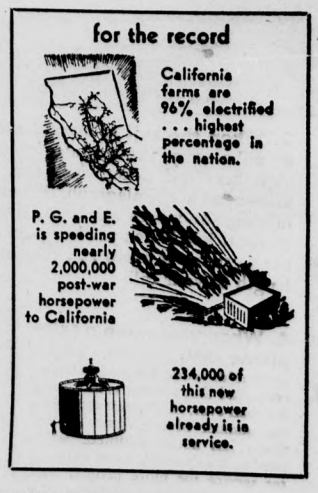
Why California uses more rural electricity than all the other 47 States combined

The wide, rich valleys of California produce fruit and vegetables, grain and cattle, throughout the year . . . thanks to electric power. Irrigation is the most important of the many uses of electricity in rural California where more than half the nation's rural power is at work. Farm electricity is made possible by P. G and E.'s liberal policy of stringing lines into farm areas . . . by P. G. and E.'s rural electric rates, among the lowest in the nation . . . by P. G. and E.'s vast interconnected power network.

Horsepower meant just that not many years ago. For pumping was done by windmill or with animal power. It was primitive, inadequate. Then electric horsepower came to the valleys. And richness came to the dry summer fields of California.



More eggs today . . . with lighted chicken houses. Dairies milk with electricity. Rural power grinds feed, dries hay, runs electric tools. Cheap electric power means more wealth for both farms and cities in Northern and Central California.



for the record
California farms are 96% electrified . . . highest percentage in the nation.
P. G. and E. is speeding nearly 2,000,000 post-war horsepower to California
234,000 of this new horsepower already is in service.

Work never stops on our power-building program

THE FIVE BEST youthful automobile designers in the country are shown above with their model cars which won national awards of university scholarships in the 1948 Fisher Body Craftsman's Guild competition just completed. They are (left to right) Tom Goad, Birmingham, Mich., $4,000; Howard Eichen, San Francisco, $3,000; Harold Simon, San Antonio, Texas, $2,000; Harvey Whitman, Jackson, Mich., $4,000; and Ronald Johnson, Portland, Ore., $4,000. These futuristic models might well be seen on the highways a few years hence if the boys make careers of automobile designing.

Mrs. Rutherford Joins Staff

Recently accredited by the Sherwood School of Music, Chicago, Mrs. Virginia (David F.) Rutherford opened her fall piano classes this Monday, Sept. 13.

The Sherwood Methodical course prepares students for music teaching.

Ground-Breaking Ceremonies Sunday For New Archbishop Center for Boys

Many Catholics from this community will travel to Boyes Hot Springs Sunday, Sept. 19, to witness the impressive ground breaking ceremonies for the new $1,250,000 Archbishop Hanna Center for Boys.

Monsignor Fulton J. Sheen, outstanding Catholic leader and speaker has flown to the coast to Washington, D. C., to make the dedicatory address. Monsignor Sheen will be introduced by screen actress, Miss Irene Dunne.

The ground breaking ceremonies will bring to a climax the work of thousands of Catholics throughout the Archdiocese who joined in raising a quarter of a million dollars to build the finest shelter in the nation for neglected boys.

Archbishop John J. Mitty will make the final address on the 170-acre site location, and then a small boy elected from the membership of the present Hanna Center in Menlo Park will turn the first shovel of earth.

Archbishop Mitty will bless the ground with holy water flown direct from Rome. The Pope is keenly interested in the problems of youngsters and the leadership Northern Californians have taken in helping to solve them.

The program will last for one hour beginning at 2:45 p.m. There will be adequate parking. The public is invited.

Mrs. Donoho To Sing Here

Mrs. Homer Donoho, leading soloist for the First Methodist Church choir, San Jose, will be the guest soloist at the Methodist Church next Sunday morning at the 11 o'clock service. Mrs. Donoho has been the soloist for numerous musical events at San Jose State College, and is recognized as a fine artist in the musical circles of San Jose.

The pastor will preach on the topic, "Short Circuits."

Air Recruits Are Home on Leave

Home on recruit leave from the Training Center in San Diego, Calif., are Duane Malone, of 138 Kennedy avenue, and Robert Gene Williamson, of 156 Sunnyside avenue, Campbell.

Both of these men were enlisted through the U. S. Navy Recruiting Station in San Jose, as Airmen Recruits. They have recently been advanced to Airmen Apprentice.

When they report back to San Diego Sept. 22 at the termination of their leave, they will be transferred to the Aircraft Fundamentals School at Memphis, Tennessee, for 10 weeks of basic fundamentals.

Duane hopes to become an Aviation Machinist Mate and has stated that he intends to make the U. S. Navy his career. Robert has as his ambition the Storekeeper trade and will also make the U. S. Navy his career.

Both Duane and Robert remarked that they have never felt better in their life and enjoyed their stay at the Naval Training Center . . . also, they are looking forward to seeing all of their friends here in Campbell.

New Books In at Campbell Library

With upward of two thousand readers to serve, Campbell branch of the County Free Library has many kinds of literary tastes to provide for.

Weekly deliveries of books keep grown ups, children and in-betweens well supplied with food for thought—among the recent arrivals are:

Allen, Toward the Morning; Bates, The Weather Breeder; Berlin, Lace Curtain; Carnegie• How to Stop Worrying and Start; Cunningham, Victory of Paul Kent; Doublas, Appleseed Farm; Drake, Chrysanta; Finnie, Canada Moves North; Greene, The Heart of the Matter; Jackson, The Outer Edges; Kendrick, The Flames of Time; Kuhn, Cornelia; Machen, Tales of Horror and the Supernat; Malaquaid, World Without Visa; Marion, Westward the Dream; Mason, Eagle in the Sky; Matschat, Suwannee River; Nehru, Nehru on Gandhi; Religious, Liberals reply; Rogers, Student's History of Philosophy; Saliers, Modern Practical Accounting; Shaw, Plays Pleasant and Unpleasant; Sheehy, There's Music in Children; Skinner, Family Circle; Smith, Baby's First Two Years; Strecker, Their Mother's Sons; Toepperwein, I want To Be A Cowboy; Van Gelder, Important People; Voorhis, Confessions of a Congressman; Walworth, Cape Breton, Isle of Romance; Wilkins, First Spanish Book; Wright, The Shepherd of the Hills; Wright, Chicago Murders; Lyons, Our Unknown Ex-President.

Importance of Vitamin A in Child Growth Shown

Spinach is good for children. That old bit of grandmother's wisdom received new scientific backing in experiments conducted by Professor Agnes Fay Morgan, chairman of the department of home economics of the University of California College of Agriculture. She found that a vitamin A-deficient diet caused young rats to use their protein inefficiently and thus slow down in growth and weight increase while adult rats remained unaffected.

Translated into terms of humans, Dr. Morgan explained, the experiments indicate that children need vitamin A to maintain their protein growth and development while adults no longer need it for this purpose. This justifies the practice of providing youngsters with food that either contains vitamin A, or carotene which the human organism turns into the required vitamin. Fishliver and codliver oil, milkfat and egg yolk are among the food stuffs rich in vitamin A, while most of the red and yellow fruits and vegetables such as apricots, prunes, peaches, and carrots—and also the green leafy vegetables such as spinach—contain carotene.

Some $30 damage to an automobile owned by a cannery worker was reported Friday, after a fire which was put out by Campbell Fire Department.

Tom and Merle Shaves, Lou Kline, Ray Pharris, Hale Vagts and several other men from the district are hunting this week in Cherry Valley.

Farms Meet in Sacramento Scheduled for November

The 30th annual convention of the California Farm Bureau Federation representing nearly 55,000 farm families, will be held in Sacramento, November 15-18, it was announced today.

Charles J. Cali, president of the Santa Clara County Farm Bureau, quoted Federation President Ray B. Wiser as anticipating the largest attendance in the 30 years history of the organization.

Delegates and members from 51 County Farm Bureaus will take part in the meeting, said Cali, and adopt policies for the coming year.

Wiser announced that many prominent men and women already have accepted invitations to address the Sacramento convention. Among these are:

Mrs. Raymond Sayre, of Iowa, president of the Associated Country Women of the World; Edward A. O'Neal, of Alabama, former president of the American Farm Bureau Federation; United States Senator Edward Thye, of Minnesota; Roger Fleming, of Washington, D. C., director of the American Farm Bureau Federation's Washington Office.

Invitations also have been extended by Wiser to United States Senator Hugh Butler, of Nebraska; Governor Earl Warren; and Lieutenant Governor Goodwin J. Knight.

"Our annual convention is the highlight of our Farm Bureau year of accomplishments," said Cali. "It is also the period in which we project our program and activities for the future.

"We urge our members to make plans at this time to attend the Sacramento meeting."

Heads Drive Against Featherbedding

E. C. Hummel, well-known Southern California industrial and civic leader and president of the Utility Steel Foundry of Los Angeles, today accepted chairmanship of the Southern California Committee Against Featherbedding, which is leading the campaign in favor of Proposition 3 on the November ballot.

Hummel is past president of the Metal Trades Manufacturers Association of Southern California, a past director and regional vice-president of the National Association of Manufacturers, and at present is chairman of the Statewide Industrial Committee of the California State Chamber of Commerce.

CAL POLY ALUMNI

Alumni of California State Polytechnic College, scattered throughout California and other Western states, have been invited to return to the college campus for the 41st annual Homecoming celebration on Oct. 9, John Hanna, president of the alumni association announced today.

National Guard Day Set for Sept. 16 Anniversary

The nation celebrates September 16 as National Guard day. Established by Presidential proclamation, that date is the eighth anniversary of the Guard's entry into Federal service before World War II.

This year, National Guard Day will also mark the end of the second year of the Guard's reorganization since the end of the war. With an ultimate strength of 684,000 men in 27 divisions, 12 wings, 21 regimental combat teams, the new National Guard will be a real M-Day Force, trained and equipped for immediate action in the event of national emergency. In two years, the Guard has grown to 317,000 men, a strength greater than it ever had before Pearl Harbor.

During this fiscal year, the Congress has set a strength ceiling of 341,000 men for the Guard. The portion of that strength ceiling allotted to the several States and their units has already been exceeded in some cases.

But the Guard still needs men. It needs men to fill existing vacancies under the ceilings. It needs men to replace the losses which are inevitable in every voluntary organization. It needs men to be able to expand rapidly when the strength ceiling is raised at the end of the fiscal year.

The National Guard of the United States is conducting a recruiting drive during September, October and November. Throughout most of the country, that drive is aimed to bring units up to ceiling strength. In those areas where ceiling strength for this year has already been reached, the emphasis will be on keeping the units at ceiling strength.

SCHOLARSHIP WINNER — David Barclay Kirby, Berkeley, has been awarded the Friend W. Richardson scholarship in journalism on the Berkeley campus of the University of California. A 24-year-old Army veteran, Kirby will enter his senior year at the University and will serve as sports editor of the Daily Californian, student newspaper, this fall. Kirby is the second student to win the scholarship set up by the California Press Association as an award for an outstanding journalism student who intends to work on a California newspaper upon graduation.

COTTON FOR COLD

Well camouflaged and warm, too, these members of the 82nd Airborne Division plod through the snow during "Exercise Snowdrop" at a northern post. The National Cotton Council reports the soldiers are wearing light-weight, wind resistant cotton garments made of very tightly constructed fabrics. The outer cotton uniform is used over a softer and more resilient undergarment and provides more warmth and comfort than heavy overcoats.

Carter Predicts Party Victory In November

State Democratic Central Committee Chairman Senator Oliver J. Carter predicted today that California would preserve the tradition of the last four presidential eleutions and wind up in the Democratic column next November. Senator Carter made his statement at Democratic Party headquarters here upon his return from a 2,000-mile tour of Northern California for conferences with local Democratic leaders.

Upon the basis of the sentiment he found on his trip, Senator Carter added, he looked for the Democratic ticket, headed by President Truman and Senator Barkley, to carry on the record begun by the Democratic Party in 1932. President Roosevelt, with Truman as his running mate, defeated Dewey in California in 1944 by over 475,000 votes.

"The Democratic Party has made a habit of winning presidential elections in California," Senator Carter said. "We all know what the issues are in this election. This time, as in previous elections, there is a lot of talk from the Republicans about what they are going to do about our problems in the future, on a when-as-and-if-basis, of course. The people of California have shown, by their votes in the last four presidential elections, that they recognize the leadership of the Democratic Party and that they like performance to go with promises.

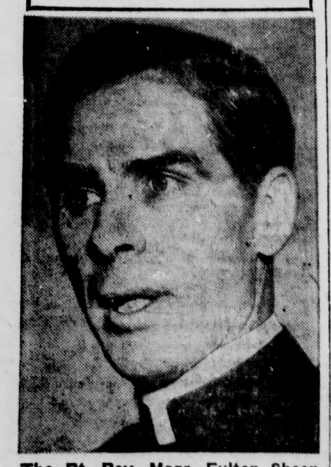
"I mention these facts at the outset of the campaign because I feel that the hundreds of thousands of new people who have come to California to make their future for themselves and their families are entitled to know the record upon which the Democratic Party bids for the support of the voters in California.

"The Democratic Party can rightfully ask for the support of every California voter, newcomer or native son. The Democratic Party has a record of vision, of courage, and of statesmanship. Above all, it has a record of accomplishment. If California is to solve the great problems which cast their shadow across its future, the kind of leadership which the Democratic Party furnishes will be sorely needed at Washington.

"Like the rest of the country, California people are suffering from the ruinous high cost of living. Our housing shortage is the most critical in the nation. Unless we meet the water and power crisis in our State, there is grave doubt that we can support our tremendous new population. The record will show which party, Republican or Democratic, has matched talk with action on the problems of the West. The record will show that the Democratic Party has offered the solutions and the Republican 80th 'do nothing' Congress has offered the obstructions.

"In President Truman, the Democratic Party has a man with the qualities of great leadership, and the qualities of mind and heart which enable him to know and understand the problems of all our people. He will lead the Democratic party to victory in November."

Speaks for Boys



The Rt. Rev. Msgr. Fulton Sheen will be one of the principal speakers at the ground breaking ceremonies for the new Archbishop Hanna Center for Boys Sunday, Sept. 19. The $1,250,000 shelter for homeless and neglected boys will be constructed near Boyes Hot Springs in the Sonoma Valley.

Scout Roundtable To Be Here Tuesday

Schedules for the September District Roundtables of the Santa Clara County Council, Boy Scouts of America, were announced Wednesday night at a meeting of the Commissioner Staff with Council Commissioner Milt Ryder presiding. Open to all Scouters, Assistant Scoutmasters and Troop Committeemen, the Roundtable program will include hike equipment demonstrations, "Fashion Shows," games and program summaries and visual aids. Identical programs in all districts are scheduled as follows:

Sunnyvale-Cupertino District — Sept. 20, Sunnyvale Grammar School.

Campbell District—Sept. 21, Moreland School.

San Jose North District—Sept. 22, Roosevelt Jr. High School.

Los Gatos Saratoga District — Sept. 23, Los Gatos Youth Center.

Southern Valley District—Sept. 27, Morgan Hill High School Auditorium.

San Jose South District—Sept. 29, St. Mary's Church, Third and Reed.

All meetings start promptly at 7:30 p.m.

Presiding at the District Roundtables will be district commissions Ferrin Burgess, Sunnyvale; George Jeffers, Campbell; Howard Rolin, San Jose; Robert Dench, Los Gatos; Glenn Cleveland, Gilroy, and Forrest Owens, San Jose.

PTAs Study County Charter

Full discussion of the proposed Santa Clara County charter at Parent-Teacher meetings through the valley during the next month was recommended at a meeting of the County PTA directors at their fall opening meeting at the San Jose YWCA Monday, September 13. The Charter, filed a week ago by an elected board of freeholders, will be on the November 2 ballot for approval.

"I know our membership will be glad to hear of any plan to improve government," Mrs. Leslie Wilson, president of the county board of directors, told Assemblyman Robert C. Kirkwood of Saratoga, who spoke at the meeting, as chairman of the Citizens Charter Movement campaign.

Kirkwood urged that a full discussion, by question-and-answer or forum hearings, be accorded the charter at PTA meetings during September and October, and said his organization would furnish speakers as called on.

"The charter would give us a home-rule constitution, whereby a rapidly growing county such as ours, can meet and control its government more directly than through general state laws which are limited to needs of counties smaller and less complex than ours," he said.

The charter would set up a chain of authority and responsibility under a County Executive, Kirkwood pointed out, in the place of diffuse administrative operations of present independent elective offices. Present county employes, including department heads, would be blanketed into the new structure under a positive civil service system which would offer greater career opportunities for efficient county workers, Kirkwood said. He pointed out that Santa Clara County is the most populous county which does not have a charter now. Ten California counties now operate under such a form of government.

Campbell High Begins Football Practice; Stiff 1948 Schedule Is Announced

October first is coming up mighty fast for Campbell High's football team, but if early indication count, the Bucs will be ready for any and all comers when they take the field against the Lincolnites.

Coach Art Swensen greeted some two dozen aspirants for the varsity first-string Monday morning and has put the boys through their pre-season paces this week.

Ten to 15 more players are looked for next Monday when the fall term calls the last vacationers and summer job-holders back to school.

Up the sleeve of the T-shirt that he wears for practice sessions, Swensen is said to have a brand new idea for offensive play this year—a secret that he may or may not disclose during the opening game.

Among the boys out for practice this week are: Del Ambler, Dick Abinante, Vic Berg, Harold Taylor, Richard Gerau, Pete Young, Gene Holt, Jesse Holt, Dudley Herschbach, Harold Freitas, John Aspesi, Norm Simpson, Dich Yaeger, John Oldham, Oliver Price, Bob Pracna, Bill Shepard, Dick Seisemore, Bob McMiorty, Russ Bailey and George Ingram.

C.U.H.S. VARSITY FOOTBALL SCHEDULE

Oct. 1—Campbell vs. Lincoln at Townsend Field, 8 p.m.

Oct. 8—Campbell vs. San Jose at Campbell Field, 3:00 p.m.

Oct. 15 — Campbell vs. Santa Clara at Campbell, 3:00 p.m.

Oct. 22—Campbell vs. Gilroy at Gilroy, 8:00 p.m.

Oct. 29—Campbell vs. Fremont at Campbell, 3:00 p.m.

Nov. 12—Campbell vs. Mt. View at Mt. View, 8:00 p.m.

Nov. 19—Campbell vs. Washington at Centerville, 8:00 p.m.

Nov 25 (Thanksgiving Day)—Campbell vs. Los Gatos at Campbell, 11:30 a.m.

Perry To Assist Buc's Coach

Bill Perry, former San Jose High School and San Jose State football player, today joined the Campbell High School physical education department as an assistant football and head basketball coach.

His duties during the grid season will consist of mentoring the backfield. Perry also will teach physical education classes.

He played for San Jose High during the late thirties with Pete Kmetovic and Chuck Taylor, who later starred for Stanford.

Perry was a quarterback on last season's Spartan grid team and had played guard on the 1946 San Jose State football club.

He mentored the 1948 Spartan Frosh track and field team. Perry graduated from the local college this year.

Sellout Leads to Extra Performance Of Foothills Play

"Life With Father"—as staged by Saratoga Foothills club — proved so popular that two more performances are being offered at 8:15 p.m. Friday and Saturday in the Foothills Club theatre.

Pauline Dusel of the Los Gatos Little Theatre and Clifford Giffen of Palo Alto Community Players in the leading roles of the famous play, earned the praise of audience and critics in the three initial performances last week, and will again be seen in the authentic costumes amid real antiques that make up the "props."

Miss Dusel wears the wig worn by Miss Irene Dunne in the movie version of Day's story.

The Washington Monument cost a total of $1,500,000.

Coastline Expands Janitorial Service

Expansion of Coastline Maintenance company services throughout the Santa Clara Valley, including Campbell, Los Gatos, Gilroy and Sunnyvale, was announced this week by F. L. Rieder, general manager.

Contractors of janitorial supplies and services, Coastline is equipped for household cleaning and commercial maintenance. All crew members are insured and bonded.

California canned tuna was produced in greater volume than ever in history during 1947.

Campbell Group

(Continued from Page 1)

perance Federation, was in charge of the meeting.

R. Lewis Brown was elected temporary chairman of a committee for Campbell. A meeting of this committee, with representatives from each church and civic group will be held Monday evening, Sept. 20, at 7:30 in the Methodist Church.

NEW FOOD SUPPLY? — A new understanding of photosynthesis, nature's way of producting the world's food supply from sunlight, water and the chlorophyll in green plants, is being brought about in atomic research at the University of California. Here a scientist counts radiations from radioactive atoms absorbed in barley leaves. Complete understanding of photosynthesis may increase substantially the world's food supply and make possible the farming of "crops" in the sea.

Elks Will Award 200 College Scholarships in $60,000 Competition

Two hundred college scholarships totaling $60,000 will be awarded in the seventeenth annual Most Valuable Student competition conducted by the Benevolent and Protective Order of Elks, John F. Malley, chairman of the Board of Trustees of the Elks National Foundation, announced recently. Awards are made to needy students of outstanding ability.

Mr. Malley said that 40 national awards totalling $12,000 and ranging from $800 to $100 each will be made, with identical amounts offered in separate competition for boys and girls. Recipients of the national awards will be selected next spring from winners of competitions sponsored by State Elks Associations and individual Elks lodges, which offer additional scholarships in amounts up to $400.

Competitions will be conducted in every state and the possessions of the United States. The awards are financed by income from the Foundation's $2,000,000 trust fund supplemented by funds from state associations and subordinate lodges, Mr. Malley said.

"Elks scholarships are a part of our Order's program of positive Americanism to develop young men and women better equipped for citizenship in a democracy," Mr. Malley stated. "We have seen enough examples of college graduates who have renounced democracy for totalitarianism to know that education alone is not enough. Nevertheless, a democratic society imposes upon its citizens special responsibilities which they can better assume if they have the knowledge and training which an education can confer. Therefore, while scholarship is the first requirement for these awards, they are made only to students whose backgrounds clearly show their fidelity to the principles of liberty, justice and equality."

Any senior student of a high or preparatory school, or college undergraduate, who is a resident of the United States or its possessions may apply for an award. Application forms and complete details can be obtained at any of the 1,498 Elks lodges. Applications must be filed before March 1, 1949.

State Approves Prune Program

The California Department of Agriculture announced the approval and issuance of minor amendments to the Marketing Program for Prunes, as amended. This action is based upon a recommendation of the Prune Program Committee.

Sections A and B of Article VI of the Marketing Program are amended effective September 8, 1948. Under the amendments it is not mandatory for salable tonnage to consist of standard quality prunes. Also off-grade prunes may be delivered into the stabilization pool.

A salable percentage of 60 per cent and a stabilization percentage of 40 per cent was recently established for the 1948 crop season.

Quality control regulations on natural condition prunes delivered to processors approved by prune producers in this season's referendum cannot be made operative for the 1948 season because such regulations were contingent upon concurrent quality control on processed prunes. Processors did not file sufficient assents to an amended processor marketing order to authorize quality control on processed prunes.

-LEGAL NOTICES -

SCHOOL BOND ELECTION NOTICE

NOTICE IS HEREBY GIVEN to the qualified electors of the CAMPBELL UNION SCHOOL DISTRICT of the County of Santa Clara, State of California, that in accordance with law an election will be held on the 15th day of October, 1948, in said District, between the hours of 7 o'clock a. m. and 7 o'clock p. m. during which period and between which hours the polls shall remain open, at which election there will be submitted the question of issuing and selling bonds of said District to the amount of Two Hundred Seventy Seven Thousand Dollars ($277,000.00), for the purpose of raising money for the following purposes:

(a) The purchasing of school lots;
(b) The building or purchasing of school buildings;
(c) The making of alterations or additions to the school building or buildings other than such as may be necessary for current maintenance, operation or repairs;
(d) The repairing, restoring, or rebuilding of any school building damaged, injured, or destroyed by fire or other public calamity;
(e) The supplying of school buildings with furniture or necessary apparatus of a permanent nature;
(f) The permanent improvement of the school grounds.

All of the foregoing purposes enumerated herein are hereby united, and shall be voted upon as one single proposition.

Said bonds proposed to be issued and sold shall be of the denominations hereinafter specified, and shall bear interest at a rate of not exceeding five per cent per annum, payable annually for the first year the bonds have to run, and semi-annually thereafter, and shall be numbered from 1 to 277 consecutively, payable as follows, to wit:

Bonds Numbered (Inclusive)	Denomination	To Run
1 to 16	$1,000.00	1 year
17 to 34	1,000.00	2 years
35 to 52	1,000.00	3 years
53 to 70	1,000.00	4 years
71 to 88	1,000.00	5 years
89 to 106	1,000.00	6 years
107 to 125	1,000.00	7 years
126 to 144	1,000.00	8 years
145 to 163	1,000.00	9 years
164 to 182	1,000.00	10 years
183 to 201	1,000.00	11 years
202 to 220	1,000.00	12 years
221 to 239	1,000.00	13 years
240 to 258	1,000.00	14 years
259 to 277	1,000.00	15 years

For the purpose of holding said election, the School District shall be and it is hereby divided into three Bond Election Precincts, numbered from one to three consecutively, as hereinafter described; and the persons hereinafter named being competent and qualified electors of said School District, and of their respective Bond Election Precincts, are hereby appointed Officers of Election, as hereinafter designated, to serve in their respective Bond Election Precincts as hereinafter set forth; and said Officers of Election shall conduct said election and make returns thereof pursuant to law.

The voting precincts, polling places, and election officers, duly designated and appointed, are as follows:

The precincts of Campbell Nos. 1, 2, 3, 4, 5, 6, and 7, Gardner No. 2, Burbank No. 1, Hamilton Nos. 1, 2, and 3, Maypark Nos. 2, 4, 6, 7, and 8, Moreland Nos. 1 and 2, Vineland Nos. 1, 4, 5, 6, and 7, and San Tomas hereinafter referred to, are precincts of the County of Santa Clara heretofore established by orders duly passed and adopted by the Board of Supervisors of the County of Santa Clara, State of California, creating election precincts in said County of Santa Clara, as prepared and described by the County Surveyor and the County Clerk of the County of Santa Clara in accordance with law, and as the same now exist.

BOND ELECTION PRECINCT NO. 1 shall include all the area embraced within Campbell Nos. 1, 2, 3, 4, 5, 6, and 7, and Gardner No. 2 which is included within the exterior boundaries of Campbell Union School District of Santa Clara County, California.

POLLING LACE therein shall be at the Campbell Union School, 11 East Campbell Avenue, Campbell, California.

OFFICERS of Election for said Bond Election Precinct:
Inspector: Arva Knowles
Judge: Virginia Howard
Judge: Elizabeth McBain

BOND ELECTION PRECINCT NO. 2 shall include all the area embraced within Burbank No. 1, Hamilton Nos. 1, 2, and 3, Maypark Nos. 2, 4, 6, 7, and 8, and Moreland Nos. 1 and 2 which is included within the exterior boundaries of Campbell Union School District of Santa Clara County, California.

POLLING PLACE therein shall be at the Moorpark School, Moorpark Ave. and Thornton Way, San Jose, California.

OFFICERS OF ELECTION for said Bond Election Precinct:
Inspector: Anna Pfeffer
Judge: Hendreka Addison
Judge: Bertha Raab

BOND ELECTION PRECINCT NO. 3 shall include all the area embraced within Vineland Nos. 1, 4, 5, 6, and 7, and San Tomas, which is included within the exterior boundaries of Campbell Union School District of Santa Clara County, California.

POLLING PLACE therein shall be at the San Tomas School, Allendale Ave. and Abbott Ave., Campbell, California.

Officers of Election for said Bond Election Precinct:
Inspector: Anita Perata
Judge: Ethelda Minehart
Judge: Phyllis Swan

IN WITNESS WHEREOF, we have hereunto set our hands this 10th day of September, 1948.

Grape Market Is Favorable

Farm Bureau's earlier predictions that California grape growers can expect a much better marketing outlook than prevailed last year were re-iterated today by Clovis Mirassou, chairman of the County Grape Department.

Mirassou added to his prediction of a month ago by forecasting that all grapes will find a ready market this year.

The Santa Clara County Farm Bureau official based his prediction on outlook information furnished him by S. W. Beckman, of Lodi, chairman of the California Farm Bureau Federation's statewide grape department.

According to Beckman, factors contributing to the improved market outlook are:

1. Continued heavy movement of wine stocks into consumptive channels.

2. Announcement by the United States Department of Agriculture that it will buy raisin tonnage over and above the joint estimated domestic needs and requirements for commercial exports.

3. All-time record domestic employment and continuance of high purchasing power.

Beckman added that shipments of table grapes continue to be slow, due to the very late season, but explained that this shortened market outlet should not be too serious if there is a good balance between grapes put down for raisins and grapes crushed for wine.

"Some early juice grapes have been purchased at prices higher than last year," Backman said.

Davis Accepts Post as California Democratic Campaign Head

George T. Davis, prominent San Francisco attorney, lifelong Democrat, and active leader in that party for many years, has accepted chairmanship of the Truman-Barkley Campaign Committee for Northern California, Senator Oliver Carter, Democratic State Central Committee chairman, announced here last night.

In accepting the appointment, Davis promised to make the campaign which is now opening one of the hottest in the history of California.

"Because the campaign is to be a real fight," Davis stated, "and of more importance than any past political campaign in the history of the Nation, I have accepted the chairmanship with the intention of giving the most aggressive leadership of which I am capable. I intend to see to it that California remains in the Democratic column in November."

Davis, who was State chairman in 1936 of the California Democratic Independent Progressives who campaigned for the re-election of President Roosevelt, praised President Truman for his "courageous" stand for Civil liberties, and against the Taft-Hartley bill. Davis said:

"Our President courageously championed the cause of all our people by his fearless and resolute stand against any and all discrimination because of race, creed, or color. He bravely fought enactment of the infamous Taft-Hartley law. He stood undaunted before encroachment by the privileged few on one side, and the wild-minded extremists of foreign-ideologies, masking as liberals, on the other side. I shall do my utmost to emulate his great example.

"I gladly accept the challenge of all those groups planning to change the course of our foreign and domestic policies for urely selfish reasons.

"I say the policies of President Truman are wise, honest, and just, and they must not be changed for any panaceas offered by the opposition — panaceas which will prove false and ruinous to our country.

"I shall do this on principle—principle which calls for steadfast resistance to all attempts of either reactionary rightists or extreme leftists to seize power at this critical state of the Nation's history—a seizure which could be fatal to our American way of life.

"In the coming campaign we shall take and maintain an offensive position. Today is no time for defensive tactics—the Roosevelt-Truman record of achievement during the past 15 years eliminates that," Davis concluded.

Davis is a graduate of the University of California. He gained nation-wide fame by his successful ten-year fight to free Tom Mooney. During World War II, Davis was a special investigator in charge of German Espionage Investigations for the Air Transport Command of the United States Army.

He is a former president of the Barristers Club of San Francisco, and a former governor of the San Francisco Bar Association.

Arrangements are being completed to establish Northern California Headquarters for the Democratic Party on Market Street within a few days.

Future of Chest

ies of which were sent to each member of the Council:

Campbell, California
Sept. 14, 1948

To the Members of the Community Chest Council:

Last Wednesday a meeting was called to receive requests and discuss the 1948 Chest Campaign. No one was present from the Council with the exception of Mrs. Cousins and myself. uith such a lack of cooperation and interest I do not feel that I can continue alone. Unless I have assurance from the members of their support within the next week, I shall feel justified in retiring as president.

Please give this matter some thought and let me know your pleasure soon.

Respectfully,
RAY FISH

USE THE CLASSIFIED

900 New Phones

(Continued from page 1)

on, "required a huge amount of construction, ranging from the building of hundreds of new telephone offices to the placing of three million miles of new wire. Cable and switching equipment have been added at a record-breaking pace. Some idea of the size of the program may be gained from the amount of new capital required by the company on the Coast. The new money required from investors since V-J Day totals about $400,000,000, equivalent to over half a million dollars every working day—and it has become increasingly difficult to raise such amounts of investors' funds.

"The telephone company's job," he said, "is still far from done. On V-J Day we had one order on the waiting list for every six main telephones in service, while today there is only one order for every 13 main telephones served. There were 300,000 orders for service at the end of the war and although 1,000,000 telephones have been added there are still 200,000 orders to be filled. The orders continue to pour in day by day and month by month, and there could be no more graphic testimony to the growth and prosperity of the Pacific West.

High School Is

(Continued from Page 1)

been resurfaced, but will not be open for use until Sept. 20 as they are still curing.

Work is proceeding rapidly on the new $70,000 six-classroom unit, which will probably be ready for use by November. In the meantime, the student body room and auditorium stage will be used by the classes which later will move into the new building.

Hill said present rate of growth indicates that construction must be started soon on a second new classroom unit of similar size, so it can be ready by the Fall of 1949.

Truman in San Francisco To Address Outdoor Rallies Wednesday

President Harry S. Truman, in his only western appearance of the 1948 presidential campaign, will address open air rallies in both San Francisco and Oakland next Wednesday night, September 22, it was announced today by George T. Davis, chairman of the Northern California Truman-Barkley Campaign Committee.

Operating on a split-second schedule that will see the President make rear platform appearances in a score of California towns, the Truman special will roll into Oakland at 7 p.m. next Wednesday, from where the President will be escorted across the Bay Bridge to San Francisco's Civic Center. According to Mr. Davis, President Truman will make a major address at his open air rally at San Francisco, and then will return to Oakland for another speech at Lakeside Park. The decision to schedule President Truman in a brace of open air appearances in San Francisco and Oakland, Mr. Davis said, was made, "in order to permit as many people as possible to see and hear the President of the United States."

President Truman will enter California via Donner Summit, and make brief platform appearances at Truckee, Colfax, and Roseville, according to Davis. Arriving at 4:15 p.m. for a one-half hour stop at Sacramento, the President will address a rally and meet with political and civic leaders representing the Sacramento Valley communities.

Following the Bay Area meetings, the presidential party will remain on board the special train at the Oakland Port of Embarkation. At 3:00 a.m. the train will start for Los Angeles, with station stops at racy (5:00 a.m.), Modesto (5:50 a.m.), Merced (6:45 a.m.), Fresno (8:00 a.m.), Tulare (9:25 a.m.), Bakersfield (10:45 a.m.), Mojave (1:25 p.m.), Burbank (4:25 p.m.), and Los Angeles (5:00 p.m.).

Farm Bureau Elects

(Continued from Page 1)

Christopher, Earl Frost, E. Matasci, Ed Lindsay, Fred Grass and Howard Lindstrom.

Leon Athenour Jr., Harold Hocking and J. W. Knowles were elected to the Executive Committee.

Santa Clara County Farm Bureau leaders are planning an intense membership drive scheduled to open on the 4th of October, through the 8th, was the announcement made by Wilton A. Stine, membership chairman and organization second vice-president.

The California Farm Bureau Federation has been contacted and it has agreed that five leaders will take part in the drive by assisting with radio talks and addresses at meetings.

"In order that the healthy state of agriculture may be maintained, the farmers must organize," stated Stine. Farming is no longer a hit-and-miss proposition. Today the farmer must be a specialist in many lines and unless agriculture is kept attractive, farmers' sons look for better fields. It is one of our organization's responsibilities to see to it that agriculture is kept as one of the profitable occupations so it will retain its young people on the farm," Stine concluded.
